Tapp Makes Progress in Paso.

Tapp Label's New Paso Robles Facility on Schedule and Opening Soon

NAPA, OCTOBER 25, 2015

Great progress has been made on Tapp Label's brand new 8,000+ square foot Paso Robles printing facility. Construction is on schedule and the new building is set to open later this year. The building is part of a larger development project by the RS Paul Company, and will feature state-of-the-art equipment including one of Tapp's two new HP Indigo WS 6800 Digital presses. It will also provide a full staff focused on the needs of Central Coast wineries, food producers, and other companies looking for top-tier label printing.

"We are very excited to be moving into the Paso area and to provide companies all over the Central Coast with the service & quality they've come to expect from Tapp Label – in a location that is convenient and designed around their specific needs." Said Rod Smith, Tapp's VP of Sales and Marketing.

Heading up sales in the Paso and Central Coast Area will be Tapp's new Business Development team Natalie Morrell, and Pete Hendy.
